

# 4LD LAMINATOR

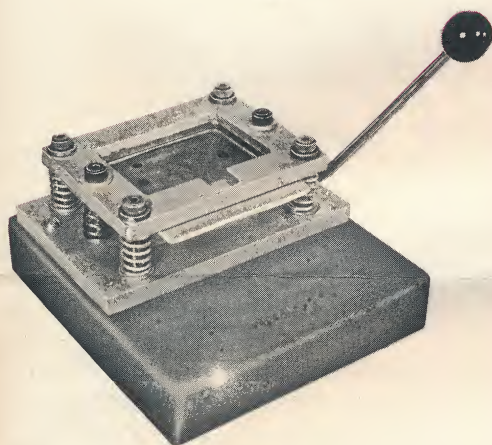

FIRST CONTINUOUS ROLLER TYPE  
IDENTIFICATION CARD LAMINATOR

FOR SPEED...ECONOMY...PERFORMANCE  
USE THESE GBC ACCESSORIES IN YOUR  
IDENTIFICATION SYSTEM

## PHOTO DIE CUTTER

In one simple, fast operation... GBC's Photo Die Cutter trims identification photographs, rounds corners... speeds production and reduces costs of ID cards and badges. Photo can be seen at all times for accurate positioning. Precision punch and die of high carbon steel assures perfect cut.

## IDENTIFICATION CARD DIE CUTTER

Producing laminated ID cards and badges in quantity, economically, is no problem when GBC's efficient 4LD Laminator is accompanied with the GBC Identification Card Die Cutter. Just one easy pull of the control lever cuts out a laminated card, perfectly trimmed and round cornered.

## ALSO

**FOOTSWITCH** plugs into 4LD Laminator, prevents film waste when operator has both hands engaged in handling and feeding materials.

**CUTOFF ATTACHMENT** provides convenient cutter to separate laminated pieces from film roll when leaving 4LD Laminator.

**EYELET MACHINE** fixes eyelet on card or badge for easy, permanent insertion of chain or clip.

**EYELETS • LAPEL CLIPS • CHAINS**—complete assortment of supplies for converting laminated cards into ID badges.
